- Powered by iVideon, a leading firm in video cloud solutions

PHILIPS

Highlights

Wi-Fi enabled baby monitor

Have ultimate peace of mind with In.Sight wireless baby monitor. It connects to Wi-Fi 802.11 bgn networks. Place the monitor right in your baby room, you can watch and hear your baby right from your smartphones wherever you are.

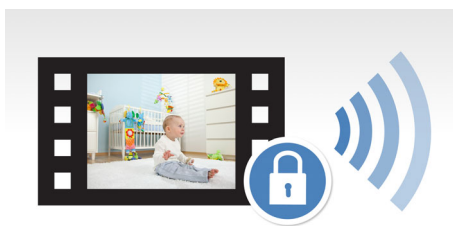

Continuous audio streaming

In.Sight wireless HD baby monitor streams audio continuously even when your smartphones is locked or when you are docking or charging your smartphones.

Easy set-up via QR code

Set-up is simple with the app. The app will generate a QR code for your home Wi-Fi settings. With the QR code, the monitor will automatically pair with your Wi-Fi network, easily and instantly.

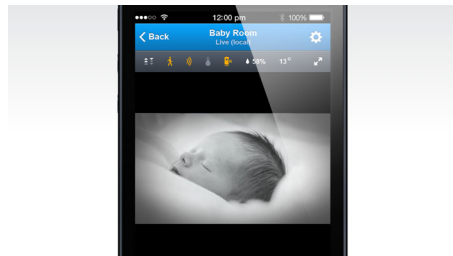

Encrypted direct networking

In.Sight wireless monitor uses highly secure encryption to provide you with privacy at all times. In.Sight wireless monitor uses a unique encryption key each time it makes a connection, providing you a highly secure

connection each time you look at your loved ones.

Night vision mode

Night vision mode allows you to see your baby's lovely face in the dark. Infrared light goes on for the monitor to capture clear black and white video when it is dark. Night vision mode switches on and off automatically, or you can adjust it manually.

PVC and BFR-free

In.Sight wireless HD baby monitor is free from brominated flame retardant (BFR) and polyvinyl chloride (PVC). It adheres to the stringent safety standards for infant utensils and is absolutely baby-proof, safe and eco-friendly.

Instant talk via smartphones

With In.Sight wireless HD baby monitor, you can talk to your baby anytime you want. Simply press "talk" on your smartphones and sing her a nursery rhyme. Watch as she falls asleep in your soothing voice.

Multi-user mode

Share monitors with your spouse, family, friends and even your baby sitters. The app lets you share each monitor with two other users so that they have access to live videos and sound via their smartphones as well. You can even upgrade the app to share the monitor with up to 16 users.

Noise and motion alerts

It's impossible to predict when something might happen to your baby. In.Sight wireless HD baby monitor keeps watching with adjustable noise and motion detection. You will be alerted anytime noise or motion is detected. Automatically receive push notifications on your smartphones when the monitor detects motion or noise.

Temperature & humidity sensor

Temperature and humidity sensors on In.Sight wireless HD baby monitor show temperature and humidity level on your smartphones. The humidity sensor measures humidity level, for instance, detecting dry air that may irritate baby's throat. The app will even alert you when the temperature is too high/low.
